CAREER OBJECTIVE

An enthusiastic fresher with highly motivated and eager to learn new things. Expert in implementation of each step of project. Eger to learn new technology and methodologies. Always willing to innovate the new things which can improve the existing technology.

SKILLS

Java | Html5 | Css3 | JavaScript | React JS | Node JS | Express | Mongodb | SQL | Git & Github

PROJECTS

Real Time Chat App (Talk Zone):

Using **MERN** stack we have created an online web base chat application, where we can talk in real time, for real time chatting here we use **Socket IO**, for cookies management we use **Cookie parser.** To generate web tokens for each user we use **Json Web Token**, we use **Node JS and Express** for backend management and for store the data we use **Mongo DB**.

Source Code -

Personal Portfolio Website:

- **Description** – This is a personal portfolio website that is created using HTML, CSS, JavaScript, some JS libraries like **GSAP, SCROLLTRIGGER**. Here to build the basic website I used **Html, Css, JavaScript** and for providing animation I used **GSAP** JavaScript library. I also use **SCROLLTRIGGER** for smooth scrolling effect.
- **Source Code -**

QR Code Generator Web Application:

- **Description -** By using **HTML, CSS, JavaScript, React** I created a web app that can generate QR code. It is website that take some data from user and generate QR Code by using **Api.** It is created with React JS.
- **Source Code –**

INTERNSHIP

- Completed Frontend Web Development Internship from **IBM Skills Build Summer Internship Program**.
  Learned about frontend technologies **like Html5, Css3, JavaScript, Create Responsive Website, SDLC implementation to create the entire project** (Here I worked as a team person and my responsibility was to maintain Frontend, we created a website on Sustainable Development goals. Our website can receive any complain regarding any types of water problem in the world, we can collect the data here.).
